Ronald Skura Meets Death In Highway Accident Last Wednesday

Ronald Skura, five-year-old son of Mr. and Mrs. William Skura of Coleman, died en route to hospital late Wednesday afternoon shortly after he had been struck by a car on Highway No. 3 about one-fifth mile east of town.

The boy was struck about 6:30 p.m. Wednesday by a late model car driven by Stanley Soroka of Edmonton. Mr. Soroka was travelling west from Lethbridge and was facing into the setting sun at the time of the accident.

It is reported the youngster had been playing on the south side of the highway and attempted to cross to his home immediately to the north.

Police said tire marks indicated the Soroka vehicle skidded about 100 feet before coming to a stop. Impact of the collision threw the boy into the ditch. A group of passing women brought him back onto the highway and he died later en route to Crow's Nest Pass Municipal hospital.

Coroner's Jury Attach No Blame

A coroner's jury under direction of Coroner Dr. E. J. Liesemer of Coleman, investigating the death of five-year-old Ronald Skura, of Coleman, who died as the result of a highway accident the evening of May 23, returned the following verdict:

"We, the jury, find that Ronald J. Skura, age 5, of the town of Coleman, came to his death by suffering a severe fracture of the base of the skull, caused when he was hit by a car driven by Stanley John Soroka of the city of Edmonton. The said accident occurred on No. 3 highway, at a point one-fifth of a mile east of the blinker traffic light on the eastern outskirts of the town of Coleman. Death occurred at approximately 6:45 p.m., Wednesday, May 23, while the said Ronald J. Skura was in transit to the Crow's Nest Pass Municipal hospital.

"We, the jury, find that Ronald J. Skura came to his death by accidental means and that no

blame can be attached to Stanley John Soroka, driver of the car. We recommend that caution signs and/or the blinker light be placed further east of its present location."

The jury comprised foreman Horace Allan, Henry Zak Jr., John Owen, Fred Guerdan, Walter Purvis and James Duncan, all of Coleman. The verdict was returned after a deliberation of 35 minutes. The body was identified by Tommy Kropanak of Coleman.

Evidence given by Dr. R. P. Stewart, who performed an autopsy, stated the lad had sustained severe skull fracture at the base of the skull to which he attributed death, besides the boy suffered shock, a compound fracture of the right leg and other external injuries.

DRIVER ON STAND

Stanley Soroka, driver of the car, stated he was employed by the Shaw Dental Laboratories of Edmonton and was travelling west of Coleman. He came to the intersection of the main highway and slowed down, as he was not familiar with the road. Deciding to take the road to the right, which is No. 3 highway, he continued on his way and saw an object shoot out onto the road, at which time he slammed on his brakes. He said the sun was glaring at the time. He saw a small red and white hat fly over the car and on stopping went to the front of the car and saw a lady there and also a boy. He then advised he had been driving ten years and had had no previous accidents. He said the lad's mother was there and said, "He's my boy." Soroka said he approached Mrs. Skura and said, "I'm sorry this happened."

During the inquest, plans and photographs supplied showed there was a slight curve east of the scene which could possibly obscure the vision at this point.

The boy was born in Coleman, January 11, 1951. He is survived by his parents, Mr. and Mrs. William Skura, and a seven-year-old brother Ben.

Coleman Fire Brigade Take Top Honors

Victoria Day was celebrated in top fashion in Bellevue Monday when the day's events were taken over by the Bellevue volunteer fire brigade.

Highlight of the day's events was the colorful parade comprising floats, decorated bikes, decorated cars, the Crow's Nest Pass band, the RCMP band, army trucks and children in costume; and a platoon of personnel of the RCMP. The parade was headed by members of the Bellevue Legion followed by the Crow's Nest band in their new uniforms.

During the morning the children were entertained at a sports day where prizes were awarded to the winners of the various events.

Winners of the parade were: Floats, 1. Bellevue High School; 2. Olive Jillian float; 3. Coleman Italian Society float. Special prize, Maple Leaf Junior Red Cross float, and a special prize to Job's Daughters' come float.

Cars — 1. Wes Hiltz, 2. William Mattson, 3. Mrs. Joanne Wolfsonholm. Trike section, 1. Helen Richards, 2. Al Krywolt and Skipper Wilson, 3. D. Ridler and Laura Ancelet, bike section, 1. Kay Griffith, 2. Lauren Griffith, 3. John Hvizdos, 4. Helen Jepson and 5. Cathy Beck.

Crown section — Larry Svoda, 2. Ronnie Price, Gilroy Price, and 4. Alfred Gleave and John Gardner. Horse section — 1. V. Rossi, 2. Lee Willoughby, 3. Wally Paulville. Special, Raymond Nensko, Special, D. Amos and Jim Jessup, and special to Ray Youngberg for his hand drawn float.

Following the parade the crowd moved to the Bellevue arena where hundreds enjoyed an entertaining variety concert put on by the Alice Buckna pupils and the pupils of Miss Helen Jepson. Winners of the recent Lethbridge music festival also entertained as well as the Crow's Nest Pass

band. On completion of the show the firemen's hose coupling competitions were held near the arena with the Coleman volunteer fire brigade taking top honors with a time of 28 seconds. Runner up was the Frank squad with a time of 28 and two-fifths seconds. Other entries made no time. Attending the competitions were A. Bridges and J. Leyland of the Lethbridge fire commissioner's office as well as Earl Spence and Mr. Ferguson of the Edmonton commissioner's office.

During the afternoon the winner of the fire queen contest was announced the winner being Miss Verna Craig of Hillcrest, sponsored by the Hillcrest Fire Brigade. Other entries in the contest were Miss Darlene Horne of Frank, sponsored by the Blaimore and Frank brigades; Miss Georgina Misura, sponsored by the Coleman brigade and Miss Elaine Amos, Bellevue fire brigade choice.

CNP Gun Club Offers \$50.00 On Anniversary

The C.N.P. Rifle and Gun Club will offer \$50.00 cash to any five members of a squad who can post a higher average than five of the clubs regular members. This offer is open to anyone in the Pass and the Todd Creek District.

The shoot will be held June 10 at 2:00 p.m. with club rules applying to the competition. Guns will be available for those that do not have them. Each man will have 25 rounds with the totals of five added together.

This is a challenge that will cost the competitors only the ammunition and birds, the club putting up the \$50.00 in an effort to promote trap shooting and prove one way or another the benefit of the sport.

● C.B.C. News Service, now celebrating its fifteenth anniversary, in the preparation of radio and T.V. newscasts for Canadians. Five nationally known newscasters are pictured above in the C.B.C.'s central news room looking at a news script prepared for one of the C.B.C.'s newscasts fifteen years ago; (l to r) Lamont Tilden, Larry Henderson, Frank Herbert, Harry Mannis and Earl Cameron. Approximately 100 editors and writers are employed in news gathering and editing for C.B.C. radio and words of incoming copy a day processes more than three million T.V. newscasts.

Coleman Italian Society Marks Golden Anniversary

Coleman Italian Society celebrated its 50th anniversary banquet held in the Italian Hall here this week which was attended by well over 150 members. Highlight of the evening came when three members were presented with their gold 50 year membership medallions. The gold pins were presented to Pete Fontana, now of Champlain, a 50 year member. Joe Anastasio of Bellevue, a founder of the lodge and to 50-year member Joe Gramacci of Bellevue. The three honored guests were introduced by Angelo Toppo, president of the lodge, while the pins were presented by Feruccio Dececco, master of ceremonies, and a junior member.

Following the turkey banquet, president Toppo welcomed the many present after which he gave a brief account of how the Italian lodge was formed at the now ghost town of Lille in 1906. President Toppo then called upon Mr. Anastasio, a founder of the lodge.

Mr. Anastasio stated he felt proud to be honored in such a manner and also happy to see that the lodge was still in existence and carrying on its functions with a good membership. Mr. Toppo then called him to cut the 50th anniversary cake.

Mr. Fontana recalled the days when the lodge was started. He mentioned the fact that he felt honored to have attended the lodge's initiation ceremonies and now the 50th anniversary. He pointed out it was very tough for Italian people coming out of this country in those days, he said, "most of us were unable to speak English and had to work like a rooster when we went into a store to show the clerk we wanted a dozen eggs."

Mr. Gramacci pointed out the fact that the first meeting of the Italian lodge had been held in Lille under a tree while today the progress of the lodge was displayed by the fine hall the lodge own. He commented on the attitude of people today an stated that the feeling of friendship was much stronger in the old days than it is now.

The next speaker, the Rev. Denis Fleming of Coleman congratulated the lodge on its anniversary brought the best wishes of the entire church to the Italian Lodge on the occasion of 50 well spent years.

MAYOR SPEAKS

Mayor Frank Aboussay also congratulated the Society and pointed out the part played by the Italian people in the history of Alberta. Stating that no other province in Canada has made the progress Alberta has in the past 50 years. Mr. Aboussay credited much of the success to the Italian people as he said no other country has given so much to the world as Italy. In conclusion, Mayor Aboussay remarked he was proud to be the mayor of a town having so many Italian people as citizens.

President Toppo read telegrams of congratulations to the Coleman Society from Calgary, Lethbridge, Drumheller, Fernie, Kamloops, Revelstoke, and a num-

ber of other centres. He then presented a bouquet of flowers to the ladies' lodge, who in turn presented the banquet with its anniversary cake. In concluding his remarks, Mr. Toppo pointed out the original certificate now framed on the wall as being the original one presented to Mr. Anastasio 50 years ago.

Feruccio Dececco presented flowers for services rendered to the lodge at its anniversary to Frances Bartoletti, Mrs. G. Misura, Mrs. Kotzi, Cathy Raymond, Florence Capla, Mrs. Gianino, Annie Lani, Vera Fergotti, Mary Atkinson, Elsie Coccolonio, Alice Montalbetti, Mrs. Squarrelli and Mrs. J. Fergotti.

Cribbing Gives Way Along Crows Nest River

Blaimore town council meeting was interrupted Friday evening by several calls from residents in the west end of Blaimore who reported that several hundred feet of concrete curbing along the south shore of the Crow's Nest river had been undermined by rising waters and had crumbled into the river.

Town foreman Martini was immediately sent out to line up equipment and men to reinforce the danger area to prevent the rising waters from washing away the banks and flooding the west end homes along the river bank.

The resignation of town Chief of Police George Brown was accepted by council and applications will be invited for a replacement for this position, to be effective as of June 1.

Council again discussed No. 3 highway program under way at present through the town's main street and Mayor Gray advised that he had contacted A. Wrate, highway engineer, who informed Mr. Gray he was looking into the drainage problems along the main street. General Paving Company will be contacted in regard to paving from the road to the sidewalk and also the opposite side of the road when the final coat of surfacing is applied this summer.

Local Fire Brigade Have Water on Fire In Three Minutes

The Coleman Fire Brigade answered a call on Wednesday evening when a small building next to Jimmie's Coffee Shop caught fire.

The building was being used as a coal and wood shed. Three minutes after receiving the call firemen were pouring water on the fire.

Any town that can boast a volunteer department which moves that fast can be very proud. This is another very fine performance that can be chalked up to the Coleman Fire Department.

Coleman Athletes Attend Meet At Cardston

On Monday, May 21, the Coleman Track and Field Club was represented at the Cardston Meet by a small team consisting of 2 boys and three girls. The success of this group was very encouraging as the competition was keen. Athletes from many centres attended including Calgary, Lethbridge and Raymond.

The star of the Coleman team was Taras Iwasiw, who won three events: 100 yards, 220 yards; Broad jump. In winning the 100 yard event, Taras ran it in the time of 10.9 seconds. This was really good when our local athletes have only been in light training for one week before the meet.

Sandra Chalmers won two events: discus, softball throw, and placed second in four events; 60 yards; 100 yards; broad jump and high jump. I might point out that Sandra had not even seen a discus before the day of the meet and was only shown briefly how to throw it before the event.

Placings were obtained by the other members of the team Ladik Tymchyna, who ran in the open class placed third in three events: 100 yards, 220 yards and broad jump. Judy Maynard placed third in the only event she entered, 60

yards. Incidentally, this event was won in the fast time for 7.6 sec. which was very good for girls under 14. Carol D'Amico placed second in the softball throw, the only event she entered.

Taras Iwasiw tied for the grand aggregate in the boys under 16 group, while Sandra Chalmers was the runner-up for the grand aggregate in the girls under 18 group, failing by only 1 point.

The athletes competing are to be commended on such a good performance. It is hoped that a few more take advantage of the training that is available. This year, the weather has been against training, but full training will be given for the Provincial Inter-scholastic Championships to be held at Lethbridge on Saturday, June ninth.

At the Lethbridge Rotary meet on Saturday, May 26, Taras Iwasiw won the 75 yds. and 220 yd. event and placed third in the Broad Jump. Also Taras joined a relay team that won first prize. Unfortunately he failed, by one point, to take the grand aggregate in his class.

Dobek Elected President Blaimore Board of Trade

When Blaimore Board of Trade held its monthly meeting at the Turtle Mountain playgrounds in Frank this week a new slate of officers was elected to office by acclamation. To head the board this term are president Joe Dobek, vice-president F. J. Loe, treasurer Lorne Chyzal and secretary R. H. Crabb. The executive will comprise M. VanWyk, R. Crabb, T. Cantonio, P. Cantonio, J. Kerr and T. Slapak.

The matter of the Calgary Stampeder's football team coming to train at Blaimore this summer was brought up and since it was learned that the team had chosen a B.C. point for their summer camp, the matter of repairs and putting into shape the local baseball field and stadium was discussed by the board. Plans for this work had included planting grass, keeping the turf cut during the summer, putting in a number of showers in the local arena and installing a water line to the baseball field. Feeling this work should be done anyway, the board moved that the board of trade spearhead a drive to have this work done.

JULY 1 SPORTS

Don Thornton of the Blaimore Lions spoke on reviving the July 1 celebrations in Blaimore and advised that the Elks' Lodge would sponsor a dance, the sports association a sports program, the boys scout a three-day program and a carnival would also be held. He announced that due to the Crow's Nest Pass golf tournament being held at Fernie this year the local Golf Club could not sponsor a tournament. A program of decorating homes in town with bunting and flags will be conducted by the Lions.

After an informative talk on tourist trade, J. Kerr made a motion that the local board become members of the Rockies Tourist Association. Mr. Kerr will act as delegate at a meeting to be held at Red Deer on May 29 and 30.

Coleman Rodeo Parade Plans Shaping Up

E. Corson, parade marshal, reported this week that he expects at least eight bands to be on hand for the Rodeo parade July 7.

Over 100 floats and displays are already entered. United Trailer Co. of Edmonton and Calgary, will display two of the latest in house trailers. Entire float display will be over 100 feet long, but this float will not enter competition.

Mr. Corson stated that in previous years there had been some firms and organizations not contacted, and if this has happened this year, please contact him.

Long Time Resident Of Pass Given Rites

Many friends and relatives of the late Frank Alampi, former resident of Coleman and later of the Rosehaven Home in Camrose were on hand Monday morning to attend Requiem High Mass for him celebrated in the Coleman Holy Ghost Catholic Church.

The late Mr. Alampi, 73, passed away at Rosehaven on Saturday morning following a long period of ill health. He was born in Italy July 25, 1883 and came to the U.S.A. in 1896 with his father. He worked in the Coleman mines for many years leaving here for Rosehaven about 17 years ago. He was a former member of the Coleman UMWA and was one of the founders of the Coleman Italian Society, being secretary of this group for many years. He returned to Italy seven times during his life.

He was predeceased by his wife Angela at Coleman in 1933 and by a son Frank in Coleman about ten years ago.

Surviving are a son, Joe Alampi of Coleman, four daughters, Anne, Mrs. J. Marconi, Jenny, Mrs. J. G. Aratone, Genevieve, Mrs. P. Rizzo and Josie Swanson, all of Coleman, nine grandchildren and two great grandchildren.

Following the service in the church the cortege proceeded to the Coleman Holy Ghost Catholic Cemetery where interment took place. The Rev. Denis Fleming officiated. Members of the Coleman Italian Society were in attendance.

Former Coleman Girl Graduates From Holy Cross

Catherine Marie Wagner was amongst the recent graduates nurses from the Holy Cross Hospital in Calgary.

Miss Wagner's mother, Mrs. W. Jones of Calgary is also a graduate nurse and she is a former Coleman girl being one of the late Mrs. Katherine Kilgannon's daughter. Miss Wagner's uncle Mr. James Kilgannon resides in Coleman. Her aunt Mrs. Agnes Ryan, now nursing in Calgary at the Holy Cross Hospital attended the graduation.

Coleman Collieries Return to Single Shift Outside Working

Coleman Collieries on Monday returned to the single shift on its schedule workings due to a decrease in coal orders. A small number of workers were laid off. These men were rehired only about 3 weeks ago to meet a short demand for coal. All of these men expected this layoff.

GARDEN NOTES—

Changes needed in lawn care when summer heat comes

When real summer heat comes, one should make a few changes in the regular lawn care. Grass is a cool and moist loving plant and in most parts of Canada it is not likely to get that sort of weather in July and August. It won't make much growth when the thermometer goes much above 75. In consequence one should cut less often in hot weather and also

set the mower higher. And even if we remove the clippings earlier in the spring, it is a good plan to let them lie where they fall in the summer. They will make a mulch which, with the longer grass, will protect the roots from the burning sun.

Early summer, when the nights get fairly warm, is the best time to apply the chemical weed killers. Used with reasonable care it is amazing how these will wipe out dandelion, plantain and most broad leaved weeds. One should cover the whole lawn but one must be careful to miss any flowers or shrubbery because these sprays will seriously damage if not kill them.

For a real job one should always repeat the spraying in about three weeks to a month's time. This second application will catch those weeds which have sprouted from seed since the first treatment. It is best to keep one sprayer for this weed killing business only, otherwise one must be most careful to wash machine and nozzle thoroughly before using for any other purpose.

Keep planting

There is a strong temptation when the weather really turns warm to get out and dig and plant the whole garden on a single afternoon. Experienced people, however, restrain that natural urge. They know that there is no great rush and if they spread the planting over several weeks more likewise the harvest and the pleasure of gardening will be spread out. Even with flowers, some spreading is desirable as we are thus assured of longer bloom and if the weather suddenly turns against us, we have not lost everything.

With vegetables, the wise gardener will sow standard things like beans, beets, carrots, corn, radish, lettuce, and so on not once, but at least three times from two to three weeks apart. In this way there will be something coming along always, and at its best. New, quickly grown vegetables are always the most tender and some of them, like corn and beans, remain only at top quality for a few days.

With vegetables, the wise gardener will sow standard things like beans, beets, carrots, corn, radish, lettuce, and so on not once, but at least three times from two to three weeks apart. In this way there will be something coming along always, and at its best. New, quickly grown vegetables are always the most tender and some of them, like corn and beans, remain only at top quality for a few days.

Davis and his wife Angeline, 32, have a nine-year-old son, Tommy. There isn't much danger of his changing his name, because his father tattooed it on him when he was three years old.

Davis said that one of his big problems involves customers who change their minds, come back the next day and say, "I don't like it, take it off."

"Two late for them," he said. "They got to see a plastic surgeon. I don't practise medicine without a licence."

Overweights disease prone

Dr. William Parson of the University of Virginia told the third Ohio Conference on Human Nutrition at Ohio State University that overweight persons are more likely to die of degenerative diseases. "Studies show that overweight people have 60 percent more heart disease, are 275 percent more prone to diabetes, 50 percent more likely to get cirrhosis and 145 percent more prone to gall stones," he declared.

Helps You Reduce Swollen Painful Piles

Here is a nice, clean, easy way to get real relief from the nagging distress of swollen, painful piles without the inconvenience of ointments, pile paper or suppositories.

The secret is in taking just one small Hem-Road Tablet, with water, two or three times a day. Works through effective INTERNAL action. Quickly eases constipation, reduces itching, soreness and pain. Helps shrink piles and permits them to heal.

Why suffer needlessly when Hem-Road offers you so much. Get a package today. See for yourself how nice Hem-Road is to use. How effective it is and how much more comfort it will quickly bring you.

All drug stores. Low cost! Money refunded if you are not 100% pleased.

CANADA'S STANDARD PIPE TOBACCO

Skin divers' victory is 'bitter' one

Eight saddened Australian skin divers found recently that their battle against man-eating sharks to bring up five bottles of 70-year-old whisky from a sunken 19th century schooner was for naught—it had turned bitter as they got on shore.

"Burning and unpleasant," moaned Lyle Davis after swinging from one of the five encrusted bottles brought to the surface.

Sadder still was the thought that 40 feet down in the sunken hulk were 80,000 more gallons of the worthless bitter brew.

The skin divers, bristling with tomahawks, knives and fishing spears, fought a titanic battle with the sharks for possession of the wreck, the Scottish Prince, which sank near here four months after clearing Glasgow, Scotland, in October, 1886.

Sharks attack. Three 10-foot sharks lurking in the wreck attacked them. One of the frog men lashed out with a tomahawk and whipped a shark's tail off. The others fled.

The eight, trained in Australian inland waters by Davis, head of the Underwater Spearfishing Club, glided silently through the ghost ship.

Then one by one the encrusted bottles were gently and triumphantly brought to the surface.

But even then the divers' fight was not over. Hawk-eyed Customs men were the first to greet them on the surface, and promptly whisked the bottles away to a bonded warehouse.

All five bottles—three Scotch and two Irish—seemed to have withstood the underwater storing. The corks didn't even pop under the change of pressure when brought to the surface.

But then the first taste—and a drinker's paradise was shattered.

Funny and Otherwise

Long-suffering Husband—Ruth, you promised you wouldn't buy another new dress. What on earth made you do it?

Modern Eve—Dear, the devil tempted me.

Long-suffering Husband—Well, why didn't you say, "Get these behind me, Satan?"

Modern Eve—I did, and then I heard him say, "It fits you just beautifully at the back."

"How do you like your new boss, my dear?" asked Jill's mother.

"Oh, he isn't so bad. Mummy; rather bigoted, that's all."

"What do you mean, bigoted?"

"Well, he thinks words can be spelled only one way."

They were sitting on the veranda in the moonlight. No words broke the stillness. She began to yawn.

"I say," she said, suddenly, "suppose you had money, what would you do?"

"I'd travel," answered the bored, closing his eyes dreamily. He felt a small hand in his, and sighed happily. When he looked up again she had gone.

In his hand was the bus fare.

"How come you didn't hold your lodge meeting last night?" one man asked another.

"A little trouble," explained the second. "The Supreme Exalted Grand Potentate's wife wouldn't let him out of the house."

The ancient Greek orator, Demosthenes, put pebbles in his mouth to improve his speech.

The Pattern Shop

TWO-IN-ONE

Scoop-necked pinafore and party dress

by Alice Brooks

Cool scoop-neck pinafore becomes a party-pretty dress — by adding the separate collar. She'll love this versatile new style, you will too—it's sew-very-easy!

Stomach punches, plunger blows rout burglar

Two plucky Minneapolis women, surprised by a burglar who entered their bedroom, used stomach punches in combination with telling blows with a bathroom scale and a plumbing plunger to rout the husky intruder recently.

Elsie Urista, 27, beat the man over the head with the plunger. Her mother, Mrs. Pearl Urista, 71, threw the bathroom scale and conked the burglar on the head.

"Let me out of here," the man yelled, but Miss Urista refused to let him retreat in dignity. She struggled with the intruder all the way down the stairs and to the back door.

"I didn't chase after him," she explained. "I had my nightgown on."

Canadians make mark in gunnery

In recent years, Canadians have been making their mark among Commonwealth sailors in the senior gunnery instructor course at H.M.S. Excellent, Royal Naval Gunnery School in Portsmouth, England.

Petty Officer Kenneth Albert Jackson, 35, of St. Thomas, Ont., and Vancouver, is the sixth from Canada to obtain the highest marks in the course. He was awarded the Commander Herbert Llewellyn Prize of £5 and a suitably-inscribed sheepskin document for leading the most recent class on Whale Island, where the famous gunnery school is situated.

Fashions

Sew-easy separates

by Anne Adams

Separates with a smooth coordinated look—smart fashion any season! This two-piece is a cinch to sew; classic blouse in three sleeve versions—favorite full-circle skirt below. Ideal for cottons in gay plaid, check, print!

This pattern is easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

To obtain this pattern send twenty-five cents in coins (stamps cannot be accepted) to:

Anne Adams Pattern Dept., Department P.P.L., 60 Front Street W., Toronto.

Be sure to write plainly your Name, Address and Pattern Number.

Research and planning said forestry need

PRINCE ALBERT—Saskatchewan needs more long-term research and planning, to keep its forest industry profitably productive.

That, in a nutshell, sums up the thinking of provincial foresters, expressed at the annual Technical Foresters' Conference, held here recently.

One suggestion included the setting up of a "code" to serve as a guide to action over the long term. From it would come "rules and procedures and policies, and from them would come schedules, forecasts, graphs and maps."

To keep the present timber industry alive and promote use of tree species not presently harvested, recommendations were made to have harvesting of timber stands carried out on a partial cut basis, with repeated cuts at short intervals; the practicing of closer utilization in the woods and at the mill; and the salvaging of defective and damaged timber more promptly and completely.

Foresters at the conference expressed the general thought that advancing technology in forest products, along with new and faster methods of transporting raw wood overland, would bring utilization of Saskatchewan's tremendous pine and poplar areas. This, coupled with the growing consumer market for wood products, assured Saskatchewan of "an expanded forest industry fully utilizing our forest crop."

FOR YOUR GARAGE

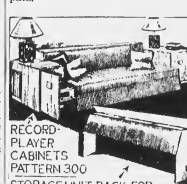

Lantern cupola atop the roof; storage unit

When you make this glass cupola for the garage the light from the lantern that hangs from the ceiling will be a happy medium between a flood light and a full moon. On the dark nights there will be a friendly glow over the premises. The glass sides are four basement windows. The curv-

LANTERN CUPOLA PATTERNS 403

ed rafters and the roofing sections are cut from a pattern which includes details for fitting the cupola to the roof. Either a barn or a railroad lantern is wired with fittings from the hardware store. The chandelier, weather-vane and an American Indian tracing design are on pattern 241. Patterns are 35¢ each. The Homestead Improvement Packet of five patterns for other valuable outside improvements is priced at \$1.50 post-paid.

STORAGE UNIT BACK FOR A WIDE COUCH—PATTERN 299.

This storage unit turns a studio couch or a single bed into a daytime sofa with modern lines. Large detailed drawings on the pattern show each step from making the frame to the finished job as it appears in the sketch. Pattern also carries perspective drawing with diagrams to show how 6½ yards of 48-inch-wide material may be cut to make a cover for a full length 38-inch wide bed and also for the front of the storage compartment. The upholstery directions will guide the weekend furniture builder to perfect success. Pattern 299 for the storage unit and 300 for the music cabinet are 35¢ each.

Address order to:

Home Workshop Patterns Department P.P.L., 4133 West 5th Avenue, Vancouver, B.C.

Issuing two new postage stamps in June

Two new stamps will be issued June 7, 1956, emphasizing the importance of special industries in Canada. One, based on the chemical industry, will be a 25-cent stamp, red in color and one and one half inches high by one inch in width. The second stamp, based on the pulp and paper industry, will be a 20-cent stamp, green in color, one and one half inches in width by one inch high. The sizes are approximate.

First day covers must be forwarded to the Postmaster, Ottawa 2, Ontario, to arrive not later than June 5, 1956. In view of the high nomination of this stamp, no cover service fee is being charged, the Post Office department circular states.

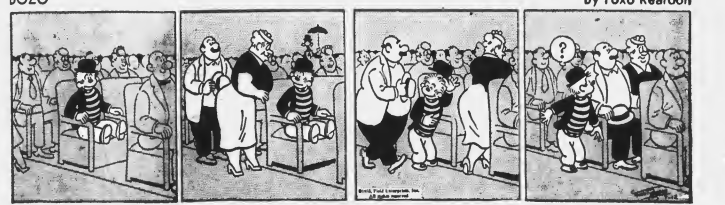

Broadcloth was originally a silk shirting, so named because it was woven in greater widths than the usual 39 inches.

Don't Neglect Slipping FALSE TEETH

Do false teeth drop, slip or wobble when you talk, eat, laugh or sneeze? Don't be annoyed and embarrassed by such handicaps. FASTEETH, an alkaline thin-set powder to apply to your plates, keeps false teeth in place. It's a sure, safe, and comfortable. No gum, no sticky paste or tending. Get FASTEETH today at any drug counter.

Learn to use a pressure bandage

Every athlete is subject to such injuries as sprains, strains, charley horses, severe bruises, etc. For this reason, every athlete should learn to use a pressure bandage, because it is an effective way to reduce the severity of such injuries and hasten the healing and recovery process.

Briefly, the idea is this. A piece of foam rubber, felt or cotton batten is pressed tightly against the injured area as soon as possible after the injury and held tightly in place with tape or elastic bandage. This pressure slows down or even stops the internal bleeding and leaking from broken blood vessels and muscle tissue that always follows such injuries.

In strains, bruises and sprains, it often is this collection of blood

and muscle fluid that makes the injury more painful and hard to clear up so that you can get back into action quickly. Ice will do the same thing, but the advantage of a pressure bandage is that it is always easy to apply, while ice is not usually available immediately after the injury occurs. If possible, a combination of the two is best—apply the pressure bandage first, and then soak the injured area in ice and water right over the bandage.

Of course, if the injury is really severe, get to a doctor as quickly as possible after applying the bandage.

A tennis hint from an expert

Mercer Beasley, one of the most successful tennis coaches in the world, has this hint for young players. Beasley claims that a majority of points are lost by hitting the ball into the net.

Says Beasley: "The average player doesn't realize that it just isn't smart to try to just clear the net with his stroke. Too many people worry about hitting the ball beyond the baseline. They should be worrying about hitting into the net."

The best plan is to give the ball lots of air. Try to clear the net by 16 to 24 inches anyway. You'll make less errors, and you'll find that your shots will go deeper into the opposing court, which is a definite advantage.

Sports College has announced a national service for the development of amateur sports and physical fitness in Canada. This newspaper is pleased to participate in this plan by presenting "The Sports Clinic" to its readers in the best interests of this community. Further information about this service may be obtained by writing to Sports College, Box 99, Toronto 1, Ont.

Physical deterioration

By WILLIAM D. ROSS,
(Field Representative, Fitness and Recreation Division)

PART II
For some time now, physical educators and others whose professional endeavors permit them to view unselected Saskatchewan children in physically demanding situations have remarked on what appears to be an alarming level of chronic muscular weakness.

The problem of having a large percentage of the school population at sub-adequate fitness levels is by no means unique to Saskatchewan. Most dramatic illustration of this was revealed by the Kraus-Weber tests conducted amongst comparable groups of American and European school children ages six to 16. The Kraus-Weber tests for muscular fitness which Dr. Kraus and his associates gave to representative groups of American and European children are designed to determine "only MINIMUM levels of muscular fitness, not optimum levels." In essence, the results showed this:

57.9% of the U.S. children failed one or more of the six tests as compared to 8.7% of the European children.

44.3% of the U.S. children failed the one flexibility test included in the six tests as compared to 7.8% of the European children.

35.7% of the U.S. children failed one or more of the five strength tests included in the six tests while one 1.1% of the European children failed.

In Saskatchewan, where the children are not yet subjected to the same degree of soft living as in the U.S., the trend is evidently in that direction. Factual evidence is very fragmentary and inconclusive, however. In the few schools conducting Kraus-Weber tests in Saskatchewan the over all level of failure for both boys and girls ranges from 30.4% to 57.7%. No one knows how high the level of failure would be on a Saskatchewan-wide sampling study. Observation, however, would not warrant optimism in this respect.

Guide lines to action:

First, a continuous program of research is essential. What are the fitness needs of the Saskatchewan people, what type of programs can be developed in order to meet those needs, how successful are those programs, and, in the light

of experience, how might they be improved. Monics must be made available for this work.

Second, parents and community leaders should do all in their power to encourage free play, walking, running, active entertainment—avoid the use of play pens and strollers, car rides and passive entertainment—develop parks and play areas with climbing structures, swimming pools, rinks and room to run and play vigorous games.

Third, every effort should be made to include gymnasiums and outdoor play areas in all schools. The physical activities in the schools should be increased and extended to include all children and youth, especially those who do not, or are unable to participate in the athletic program. Formal exercise, skillfully presented, should be stressed rather than non-active games. This emphasis should be continued until reasonable standards of physical fitness are achieved and maintained. Then, skill training and social and recreational type activities can be introduced to further enrich the program.

Fourth, encourage leadership by sports governing bodies such as the Saskatchewan High Schools Athletic Association, the Saskatchewan Branch of the Amateur Athletic Union of Canada and similar organizations in skiing, swimming, basketball, baseball, hockey, skating, etc. Also worthy of unstinting support in this respect are the Y.M.C.A., Y.W.C.A. and, especially in Saskatchewan, the Swimming and Water Safety Division of the Canadian Red Cross Society. On the local level, the community recreation organization and parks board should be supported and empowered to develop programs to complement the activities of the sports governing bodies and the schools.

Fifth, encourage top students with leadership ability to make Physical Education their career. It is a profession borne of change—lack of physical effort and the move toward an increasingly sedentary life plus a growing amount of available leisure time combine to make Physical Education one of the vital needs of our challenging times.

Baby moth does most damage to winter woollens

Contrary to popular belief it isn't the parent flying moth that does such damage to winter woollens and other garments. The culprit is the baby moth or larvae.

These tiny larvae feed on wool, fur, hair and proteins such as the stains left on clothing by gravy and other foodstuffs. And while the baby moths will not eat most natural and synthetic fibres, they will harm the fibre in their search for stains or for the wool content of a blended fabric.

For this reason it is particularly important to have clothes and blankets cleaned before storing away for another year. Dry cleaning removes soil and stains that attract moth larvae, and it also destroys any larvae that may be present at the time of cleaning.

Clean before storing

Even if there were no danger of moth damage, it would be advisable to have winter garments cleaned before storing as this takes out stains before they can set, and flushes out dirt before it becomes ground into fibres.

As a further protection for wool and wool blended fabrics, it is possible to order a moth resistant finish. Many cleaners are equipped to provide this service.

Some housewives have found that it pays to send winter garments out to be stored. For those who prefer to store theirs at home, they should be placed in a sealed bag or box. Be careful not to put a moth or insect control preparation directly on a fabric. This could be the cause of fabric and color damage.

It is estimated that the dog was domesticated about 3,900 B.C.

INVITING—Lilli Valli (?) wants to set you dreaming about a seaside vacation. Most especially about a Miami Beach, Fla., vacation. The girl (she's a Cuban dancer), the surf and the ball are real. Is "Lilli Valli" her real name?

Another use for helicopter

Another use for a helicopter: After a rain, Gene Masterson of Carlsbad, California, commercial flower grower, had one hover over a field of 24,000 blooms ready to be picked for market.

The vibration shook the rain drops off the delicate petals, which Masterson said would have rotted if packed wet. He figured it would have taken several men a full day to shake the rain off the flowers. The helicopter did it in two hours.

Quick Canadian Quiz

1. What is the minimum age of a Canadian senator?
2. Children are eligible for family allowance up to what age?
3. To pay for its spending on welfare and social security only how much must federal government collect daily in taxes from Canadians?
4. In Canada which is greater, the area of occupied farmland or the area of unoccupied land suitable for farming?
5. Which is greater, the number of Canadians employed in the manufacturing and service industries, or the number employed in the primary industries?

GREAT DISTANCE

The prominent elevations of the Rocky mountains extend for 2,200 miles through the United States and Canada.

Speeders pay fines by foot

Motorists in Bowling Green, Ohio, will have to pay by the foot for speeding violations under a new system devised by Mayor Lorin Janzer.

The plan calls for a fine of 15 cents per foot for each foot of difference between the safe stopping distance at the speed limit and the safe stopping distance at the speed which the motorist was driving.

ANSWERS TO QUICK QUIZ

1. 30 years.
2. 16 years.
3. 10 percent.
4. The area of occupied farmland.
5. The number of Canadians employed in the manufacturing and service industries.

PEGGY

THE TILLERS

Personalities IN THE NEWS

Mrs. Neil Fleming, writing to friends here, stated her son Bobbie was a patient in the Royal Jubilee hospital in Vancouver. Friends in Coleman wish Bobbie a speedy recovery.

Mr. and Mrs. W. Aschacher of Blairmore, accompanied by Mrs. Parry, Mrs. J. Morrison and Mrs. W. Garner of Coleman, were Lethbridge visitors on Friday last.

Mr. and Mrs. J. McDonald are Edmonton visitors this week. They were accompanied as far as Calgary by Mrs. Florence Smith.

Mrs. Ralph Perry accompanied by her niece, Miss Anderson of Blairmore, visited the latter's mother, Mrs. Anderson, who is seriously ill in a Lethbridge hospital. Friends in the Crows Nest Pass wish her a speedy recovery.

Miss Laura Johnston from Calgary, spent the week-end the guest of her mother, Mrs. K. Johnston.

Mr. Henry Tiberghien accompanied by his mother, returned Monday after spending the past week at Vancouver.

Mr. Tom Lloyd is a patient in the C. N. P. hospital. We wish him a speedy recovery.

Colemanites seen attending the Band Festival at Lethbridge last Saturday were: Mr. and Mrs. H. Parkinson, Mr. and Mrs. W. Gate, Mr. and Mrs. McGregor, Mr. and Mrs. W. Lonsbury, Mr. and Mrs. D. Tiffin, Mr. and Mrs. W. Hoggan, Mr. and Mrs. J. Lowe, Mr. and Mrs. L. Rasmussen, Mr. and Mrs. C. Westley, Mr. and Mrs. T. Holstead, Mr. and Mrs. F. DeCecco and son Donald, Mr. and Mrs. J. Goulding, Mr. and Mrs. J. Kostelnik, Mr. and Mrs. W. Beck, Mr. and Mrs. W. Ford, Mr. and Mrs. W. Fraser, Mr. and Mrs. F. Beddington, Mrs. A. Milley and Constable and Mrs. Ed. Corson.

Mrs. Betty Aschacher (nee Betty Garner) is still a patient in the C.N.P. hospital, she celebrated her birthday there on Sunday when many friends and relatives visited her to wish her many happy returns of the day.

Mrs. R. Fairfull of Calgary visited friends in Coleman this week, she is en-route to Los Angeles, California and will meet Mrs. W. Bell, another Coleman old timer, at Spokane, who will accompany her to California.

Dr. Peter Allen, M. D., is visiting with his parents Mr. and Mrs. E. Allen.

Mr. and Mrs. J. Salus were visitors at Fernie on Wednesday.

Mr. and Mrs. Lloyd Yates of Calgary visited here for the week-end. While here they attended the funeral of Ronald Skura.

Mr. J. Szulc was a Calgary and Lethbridge visitor over the week-end.

Miss Frances Sikara clinical instructress at the University Hospital in Edmonton is spending a holiday at the home of her parents Mr. and Mrs. J. Sikara.

Mr. and Mrs. A. Vangotsinoven of Calgary spent the weekend visiting friends and relatives in Coleman last week.

Mr. and Mrs. Wilfred Hoyle and two children Dinah and Robin of Ottawa visited here with Mrs. Hoyle's parents Mr. and Mrs. J. Allen Sr. at Coleman and Mr. Hoyle's parents Mr. and Mrs. D. Hoyle of Calgary.

Mrs. M. Antle is spending a holiday at Calgary visiting her sister Mrs. A. McLeod.

Miss V. Chernenky of Calgary visited her parents Mr. and Mrs. W. Chernenky recently.

Mr. J. Ewing, recent graduate of the Institute of Technology and Art at Calgary is visiting with his parents Mr. and Mrs. J. Ewing senior.

Mr. and Mrs. Nowasad had as their guest recently their son John who is working for a construction company at Calgary.

Miss Mary Wilson and Keith Wilson visited with their parents Mr. and Mrs. Adam Wilson.

Julius Kapalka, a student at Calgary Tech visited with his parents Mr. and Mrs. Kapalka.

J. Krycka of Calgary was a guest of his brother and sister-in-law, Mr. and Mrs. T. Krycka over the holiday weekend.

Mr. and Mrs. E. DeCecco accompanied by Mr. H. DeCecco of Banff spent the holiday visiting with their parents Mr. and Mrs. F. DeCecco.

Mr. and Mrs. S. Saloff had as their guest over the week-end, their son Stanley of Warner and daughter Ann of Calgary.

Miss Mary Treskow of Calgary visited recently with her parents Mr. and Mrs. P. Treskow.

At the St. Alban's Anglican Hall on Thursday evening whist was played with winners being: Ladies first, Mrs. B. Young, Ladies second, Mrs. Dykes, gents first Mrs. S. Penney, gents second, Mrs. D. Tiffin. The ladies were playing a cents card.

Card of Thanks

I would like to sincerely thank the Coleman Volunteer Fire Brigade for sponsoring me as their Queen in the Bellevue May Queen Competition. I would also like to extend my thanks to all those who supported me and a special thanks to Mrs. Alice Buckna and her variety concert group who helped so generously.

Angling For Trout In Small Lakes - Big Factor

Honorable Norman Willmore, Minister of Lands and Forests said that angling for trout in small lakes has become a big factor in the general sport fishing picture in Alberta. The program of stocking small lakes was begun in a small way in 1950. When these trials gave promising results, the program was expanded and during the summers of 1953, 1954, and 1955 quite a few lakes that were stocked showed signs of petering out. This could not be blamed on failure to stock, as fresh supplies of trout were released in each lake each spring. The initial interests and later failure have a rather peculiar explanation:

In the first place, only lakes were stocked in which no trout or predatory fish existed. Efforts to establish trout in lakes containing pike were not successful; also addition of trout to lakes with trout already in them did not seem to increase the yield of trout. It seems very likely, then, that after the first two stockings had established trout in a previously barren lake, it became a trout lake; and the trout in it prevented the survival of later plants. It is not necessary to assume that the big trout eat the little ones, although probably some are lost that way. Recent research on trout habits both here in Alberta and in other places indicates that trout are like some birds and animals—they establish definite "homes." These "homes" are small areas in which they spend most of their

time and out of which they drive any invader, including another trout. This has the effect of making homeless wanderers. It has been found that the first arrivals in a lake reach nearly a pound by fall; fish introduced the next year will reach about ten ounces; and fish put in the third year may reach five or six ounces or scarcely grow at all. In streams the effects are even more pronounced, the late arrivals in a stream usually fail to live through the first winter.

The current big problem in managing these trout lakes is to get rid of the big trout that are not caught after three years. Gill-netting has been tried but, contrary to most anglers' opinion, it is practically impossible to get all the fish out of a lake with nets. The most promising scheme is to

kill off the big fish every four years or so with a fish toxicant. This is a chemical deadly to fish, but harmless to man and animals. The main objection to this method is the expense. Fish toxicants have so far been too costly to use on a large scale.

This winter was a severe one and a great many lakes have suffered heavy winter-kills and some a partial winter-kill. This has helped to solve the problem but, of course, the little trout also died.

Many winter-killed lakes are now virtually in the same condition as they were before trout was first introduced a few years ago. It is anticipated that the initial success obtained in planting of the pothole type of lake will be repeated again this year with the trout reaching almost a pound in weight by fall.

Family assistance to be given immigrants

The Hon. J. W. Pickersgill, minister of Citizenship and Immigration, made the following announcement today:

The Department of Citizenship and Immigration is now accepting applications for Family Assistance from eligible immigrants and returning Canadian citizens.

Subject to the approval of Parliament, an amount of \$5.00 per month, beginning April 1, 1956, will be paid on behalf of each child of an immigrant or of a Canadian citizen returning to live in Canada permanently, until such child has reached 16 years of age or has lived in Canada for 12 months.

To receive Family Assistance mothers are requested to make application at the Immigration Office nearest to their home or by writing to the Director of Immigration, Department of Citizenship and Immigration, Ottawa.

Family Assistance cheques will be mailed to mothers directly from Ottawa every three months. For convenience each quarterly cheque will be accompanied by an application form to be submitted near the end of the following three-month period.

Family Assistance payments are intended to help newcomers become established in Canada and to keep their families united.

TEN-FOOT SPOON—Policeman questions members of League of Empire Loyalists holding 10-foot, silver-plated wooden spoon presented to Prime Minister Sir Anthony Eden in London recently. The spoon, Britain's storybook utensil for dining with the devil "he must have a long spoon who shall sup with the devil" was presented in pasted against the official banquet for visiting Nikolai Bulganin and Nikita Khrushchev.

DOWN-TO-EARTH—No girl-from-Mars spacesuit, this. It's a practical helmet and capelet, designed for farmers to wear when spraying crops with new, deadly insecticides. A Netherlands import, it was shown recently at a London, England, trade fair.

TOO POOCHED TO PARTICIPATE—Cleo, TV's sad-eyed basset hound, is dog-tired after spending a day with the 11 offspring of her stand-in, "Beauty". Beauty was stunting before the camera at Sun Valley, Calif., to give the star a rest (?).

BANKING ON IT—Sign on desk reads "new accounts", just what Adlai Stevenson is looking for as he extends a hand to voters across the nation. In this instance, recipient of a handshake from the man who hopes to capture the Democratic presidential nomination is Miami, Fla., bank receptionist Carmen Browne.

WORKERS EVACUATE BUILDING—The value of a fire escape is well illustrated in this photograph as nearly 3,000 workers evacuate the 22-story Transportation Building in Chicago. The workers were forced to evacuate when smoke from a second floor fire spread through the building.

FORMER LIAR, ALDO L. ICARDI is greeted by his wife in Washington following his acquittal of perjury charges growing out of the wartime slaying of Icardi's commanding officer. He was charged with lying before a House armed services subcommittee which investigated the slaying of Major W. V. Holohan during a daring, behind-the-scenes mission in Italy in World War II. The case was thrown out on the grounds that the subcommittee was not functioning as a component tribunal and had no power to require Icardi to tell the truth.

PRINCESS, 15, MAY WED—The Tehran, Iran weekly newspaper, has reported that Princess Shahnaz Pahlavi, 15-year-old daughter of the Shah of Iran, will marry Ardeshir Zahedi, engineer son of a former premier. The paper said the engagement would be announced this month. Zahedi is a University of Utah graduate.

WANNA BET?—Julius Lewis, of Memphis, Tenn., above, is gambling \$100,000 on the probability that a ballplayer won't clout one through the bull's-eyed knothole of the ball-park fence during team play this year. He says that Lloyd's, the fabulous London, England, insurance firm, takes a cheery view of his entering ad. They, too, are betting that no one will accomplish the theoretically possible feat.

SPRING TONIC—Mix moonshine and a bubbling, spring-fed creek and your "recipe" should produce romance. In this case, something went wrong with the formula. Police officials of Marmet, W.Va., are shown diluting a mountain creek with gallons of illegally distilled liquor. The spring "tonic" produced acute anemia of the bootleggers' pocketbooks—they were fined heavily and given suspended jail sentences.

DANCING PRINCE AND PRINCESS—Prince Rainier holds his bride, Grace Kelly, close as they dance at party at the Formentor Yacht Club near Puerto Pollensa on the island of Majorca in the Balearics off the coast of Spain. The famous newlyweds came ashore from the prince's yacht on which they are spending a Mediterranean honeymoon.

RCAF 'Goose' flies north with reese

Each year when geese wing their way north, the RCAF's No. 408 Photo Squadron, nicknamed the 'Goose' flies with them. This year is no exception.

Late in April most of the Photographic Squadron based at RCAF Station Rockcliffe left the Ottawa area for Arctic detachments located at Cambridge Bay on Victoria Island and at Fort Churchill, Man. From these northern units more than 300 members of the Air Force Photo unit began extensive SHORAN aerial surveys over the Arctic Islands.

Marking the first time that SHORAN operations have been undertaken in so northerly a region, four Lancasters, six ski-wheel Dakotas, three Otters, and four Canos will cover an area extending from the 69th parallel of latitude northward to the 75th. Full SHORAN coverage of this region is expected to be completed by late August.

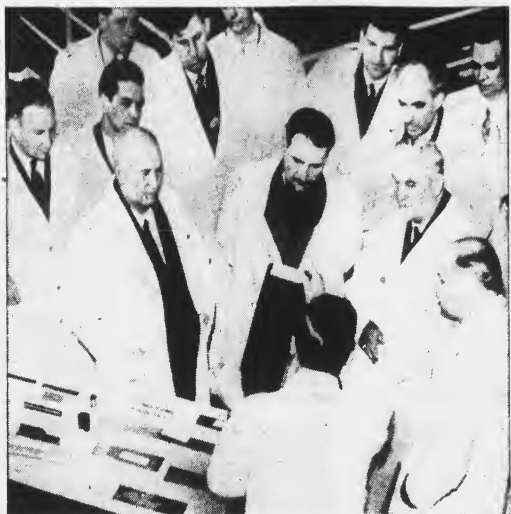

SHORAN, an extremely accurate method of aerial survey, employing radar to measure distance, was first undertaken by 408 Squadron in 1949. This unique method has eliminated hundreds of years of work by ground survey needed to cover the game area. SHORAN has proven more accurate than any other system. From the instrument-packed Lancasters, radar pulses are transmitted to radar ground stations. The time taken for the pulse to travel from the aircraft and return from the ground station is measured, divided in half, and converted into units of distance. From these calculations definite control points in terms of latitude and longitude can be established, upon which the aerial photos for map-making can be located accurately.

Aerial photos of Canada, taken by the RCAF and commercial operators during the past 34 years, tells Canada's map-makers what the country looks like. SHORAN tells them where the photos fit.

The 1956 program of aerial surveys will be followed next year by extension of the SHORAN net to the tip of Ellesmere Island to complete the basic SHORAN job for Canada.

SOME FEAT!

Joe Richard Nance, a farmer, walked 45 miles from Murray to Paducah in nine hours and 50 minutes. Offered \$100 for a repeat performance, he walked the same route again and broke his own record. The time, eight hours and 55 minutes.

SOVIET CHIEFS AT BRITISH ATOMIC CENTRE — Russian Communist Party Chief Nikita Khrushchev and Soviet Premier Nikolai Bulganin watch as a British atomic research scientist explains the display of atomic energy materials at British atomic research centre at Harwell, near London.

Large number of children suffered from poisoning, overdoses during 1955

REGINA.—A large number of the 7,000 children estimated to have been injured in Saskatchewan accidents during 1955 suffered from household poisoning and overdoses, Christian Smith, director of health education for the provincial health department, said.

\$50 Reward for simple translation

WESTON-SUPER-MARE, England.—A reward of \$50 was offered recently to anybody who can translate into simple English a letter received from the government Housing Ministry.

The money was posted by the Weston Hotels Association, which recently asked the Ministry to define the difference, for tax purposes between a hotel and a private house which rents out rooms. The Ministry's reply:

"For the purposes of this act the hereditament, which is used for the letting of rooms singly for residential purposes shall be deemed not to be used for the purpose of a private dwelling or private dwellings if the whole or substantially the whole of the available accommodation is used for such lettings, but save as aforesaid a hereditament shall not be deemed for the purpose of this act to be used otherwise than wholly for the purpose of a private dwelling or private dwellings by reason that one or more rooms therein are let for residential purposes."

"Saskatchewan Hospital Services Plan records show that 370 Saskatchewan people were treated as bed patients in 1955 as a result of poisoning, and that of these 198 were children under 15 years of age. Six children died of poisoning, according to the department's mortality records.

"The plan's figures do not include persons treated at home, in doctors' offices or in out-patient departments of hospitals. Thus we find that the out-patient department of Regina General Hospital alone looked after 30 poisoned children. Obviously, then the number of children treated in the province as a result of poisoning was much greater than the 198 shown on S.H.S.P. records," Mr. Smith pointed out.

"This is why some United States safety authorities estimate that there are about 150 non-fatal accidents for every fatality. It is extremely difficult if not impossible to determine exactly how many people are injured but it is known that not a single Saskatchewan municipality was free of accidents last year.

"On the basis of the American formula 900 children suffered from poisoning in our province last year. We estimate conservatively that there are 75 non-fatal accidents for every fatality, which gives us a total of 30,000 accidentally hurt in Saskatchewan last year, including 7,000 children, and 450 children the victims of poisoning.

"Druggists of the province are co-operating in an all out attack on poisoning accidents, which of all mishaps to children are the most easily preventable," Mr. Smith continued. Drugstores have been supplied with large quantities of a new folder directing householders to keep medicines, household cleaners, bleaches, and other substances out of children's reach and to dispose of old medicines safely. These are being distributed among the public.

The professional organization, the Saskatchewan Pharmaceutical Association, has joined the health department in a "home hazard hamper" competition in which the public is invited to name 30 potential substances and objects commonly involved in childhood accidents in the home. The association is offering four cash prizes and the competition will close June 10, with winners to be announced at the annual convention in Saskatoon later that month.

"These activities will help materially to make parents aware of the dangers and encourage them to take preventive measures," Mr. Smith said.

DOUBLE TRAP

His dogs caught a coyote and Frank Pfaff of Homestead, Oklahoma, found a chain and bell around its neck. On it was the name of a person who lived 35 miles away. Apparently the coyote had been caught in a trap and then released with the warning bell.

United States navy has own version of the 'rope trick'

The U.S. Navy has developed its own version of the fabled "Indian rope trick" for reliable communications in the remote stretches of the Arctic.

The trick involves suspension of an antenna from balloons trailing about 1,200 feet above a ship. With the vertical or "skyhook" antenna a ship in the icefloes of the Arctic is able to maintain radio contact with land-based radio stations 1,500 miles away.

The Navy turned to the "skyhook" antenna because of the difficulty icebreakers in the Far North had in maintaining radio contact with their short, conventional antennas mounted between masts. Radio communications there are extremely difficult and subject to such interference as ionospheric blackouts, sunspots and electro-magnetic storms.

Experiments in the Arctic indicated that reliable communications could be maintained by using low frequencies around 200 kilocycles. But such frequencies require an antenna about 1,200 feet long—obviously longer than any icebreaker could string out horizontally between masts.

'Skyhook' alternative

The only alternative was a vertical wire or "skyhook" antenna. The Navy gave serious consideration to several devices to lift the antenna wire—including a miniature, remote-controlled helicopter—but finally decided on small zeppelin-type balloons.

The balloons were developed by the Naval Research Laboratory and successfully tested out aboard an icebreaker, the USS Glacier. The balloons, which are raised and lowered by a small electric winch on the icebreaker's deck, are about 30 feet long and designed to withstand the extreme icing conditions and buffeting of the strong winds of the Arctic.

With the balloon-raised antenna system, the Navy expects that ships in the Arctic will have a reliable communications range of about 1,500 miles using a 1,200-foot vertical antenna and a transmitter operating with a power output of 1,500 watts.

The system will have the added advantage that it can be used for aerological studies and weather observations.

HAND CLAPPING

The custom of hand clapping comes from the ancient Romans, who had a set ritual of applause for public performance, expressing degrees of approval—snapping the finger and thumb, clapping the hands, etc.

WEEKLY BIBLE COMMENT

SUFFERING BRINGS FELLOWSHIP IN CHRIST

When Jesus hung upon the cross, one of the two thieves between whom He was crucified reviled Him, urging Him to save Himself and them. The other thief rebuked his fellow, reminding him they were suffering justly for their misdeeds, whereas Jesus was suffering for His innocence and goodness. The penitent thief had the reward of hearing Jesus say, "This day thou shalt be with me in Paradise."

It is the distinction between two kinds of suffering which Peter emphasizes in his writings that does so much to encourage suffering Christians.

The Christian who suffers is a partaker of the sufferings of Christ. Instead of being embittered, he may well glorify God.

Certainly as we observe life, we can not very well say that the ideal life is entirely free from suffering.

We have seen those who have accepted the way of suffering patiently and in subjection to the will of God enabled by their experience, finding a deep satisfaction in life often denied to those whose ways have been easier and more pleasant.

Peter brings this philosophy of endurance of suffering into the realm of Christian faith and practice, emphasizing the part of humanity and the strength that comes to men through casting all their cares upon God.

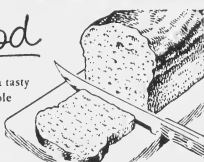

The mystery of pain has never been solved. We do not know why the innocent suffer with and for the guilty. We do know, however, that there is a fellowship in Christ's suffering which has brought to suffering Christians happiness and peace. And this, too, is a mystery.

LOST IS FOUND

While packing tea bags for a Boston firm, Mrs. Margaret Lowery, 20, inadvertently dropped her diamond ring in a carton. But now the ring is back on her finger. It was recovered after being traced to a Chicago company to which the carton had been shipped.

So good

Here's bread with a tasty difference! Dependable Fleischmann's Active Dry Yeast makes it quick and easy!

Rolled-oat Bread

1. Measure into bowl
1 cup rolled oats
2 teaspoons salt
1½ tablespoons shortening

Stir in
1½ cups boiling water
and let stand until lukewarm.

2. In the meantime, measure into a large bowl
½ cup lukewarm water
2 teaspoons granulated sugar
and stir until sugar is dissolved. Sprinkle with contents of 2 envelopes Fleischmann's Active Dry Yeast

Let stand 10 minutes, THEN stir well. Stir in prepared rolled oat mixture and

- ¾ cup lightly-packed brown sugar
2 tablespoons molasses
2 cups once-sifted all-purpose flour

and beat until smooth and elastic. Work in an additional

- 2½ cups (about) once-sifted all-purpose flour

3. Turn out on lightly-floured board and knead until smooth and elastic; place in greased bowl. Brush top of dough with melted shortening. Cover. Let rise in warm place, free from draft, until doubled in bulk—about 1 hour.

4. Punch down dough. Turn out and divide in half. Let rest 15 minutes, then shape each half into a loaf. Place in greased loaf pans (8½ x 4½ inches, top inside measure). Brush with melted butter, margarine or shortening. Cover. Let rise until doubled in bulk—about 45 minutes. Bake in moderately hot oven, 375°, about 50 minutes. Yield: 2 loaves.

Needs no refrigeration

The favorite Cheese of the Golden West

For a hunk o' wholesome goodness there's nothing like Ingersoll Baby Roll, the pasteurized process cheese that's made from fine, well-aged Canadian cheddar. For a party snack—or a between-meal bite—rope yourself some Ingersoll Baby Roll.

Russell Montalbetti Heads Tennis Club For 1956 Season

The Coleman Tennis Club had their first meeting for the 1956 season Saturday evening, May 26. The officers for the year were elected and are as follows: President, Russell Montalbetti; vice-president, Dave Peregotti; secretary-treasurer, Graham Atkinson.

The members of the club worked very hard on Sunday afternoon getting the courts into shape for this season and they have the building of the new practice board well under way. The club hopes to have all three courts painted this year.

The Coleman Tennis Club needs more members, so anyone interested will be very welcome.

Dues for this season are \$3.00 for seniors, \$2.00 for high school students and \$1.00 for juniors.

Legion Dart Tourney Winners

The Coleman Legion Dart tournament held on Victoria Day produced the following winners. Due to time being short the three top teams split the prizes:

1. Curly Alsop and Mrs. Alsop—Bellevue, 2 Jack Hunter and Mrs. Hunter, Blairmore, 3. Walter Poxton and Mrs. C. Ford.

Corsages of 25 Years Ago Worn

NATAL, B.C. — With some 80 relatives and friends gathered on the occasion, Mr. and Mrs. Mike Krall of Natal celebrated their twenty-fifth wedding anniversary at their home. At the wedding supper Harry Saunders and Tom Krall proposed toasts to the happy couple. Mr. A. Sallis said grace.

The entire wedding party wore their own apple blossom corsages that they had worn 25 years ago.

The table was centered with a three-tiered wedding cake, presented by Mr. and Mrs. John Polak, which was baked by Mrs. Ruth Polak and decorated by Amelia Zarko.

During the evening the guests of honor were the recipients of many gifts. The evening was enjoyed by sing-songs, an amateur hour and dancing with the music being supplied by Mike Camilli of Fernie on the accordion.

Out-of-town persons attending included Mr. and Mrs. Don Hill, Mr. and Mrs. John Salus, Mr. and Mrs. Victor Siska, Mr. and Mrs. Joe Myslicki, Mr. and Mrs. Corbett and Mr. and Mrs. Joe Lepacek all of Coleman, Alberta, and Mr. and Mrs. Pete White of Kelowna, British Columbia.

Gardening tips on rose growing

Even if you want to have the laziest possible garden, don't shy away from roses, says C. L. Baden-Powell in the June issue of Canadian Homes and Gardens. Although roses demand some care in planting, they're not hard to grow when you consider the lasting beauty they give you, he states.

A recently retired professional gardener, Baden-Powell has lived in Canada for 49 years and is a first cousin once removed of the founder of the Boy Scout movement. This garden expert gives six rules for successful rose growing in his article, "Rose Growing Hints for New Gardeners."

1) Buy only the best quality rose bushes from a reliable nurseryman; cheap stock is only a

waste of time and money.

2) Take time and care in preparing the rose bed — it's the chief secret of success.

3) Know exactly what you're doing when you plant the bushes.

4) Give them good care during the summer growing and blooming season.

5) Make sure you give them adequate protection from the winter.

6) Prune the roses every spring. Roses will last for several years without replacing, if properly cared for, says Baden-Powell, so whether you are remodeling your present garden or transforming a new suburban mudlot, be sure to include a rose bed.

He recommends such magnificent blooms as the classic white hybrid perpetual Frau Karl Druschki, or the superb pink grand-

iflora Queen Elizabeth. At the end of his Canadian Homes and Gardens feature, Baden-Powell

gives a chart of good rose varieties with notes on how they stand up to the Canadian climate.
